

# FedTalks

think global, talk local

FedTalks are public discussions on topics which go beyond the boundaries of the village of Federal and the Northern Rivers Region but which impact both. The aim is to encourage open conversations to help ideas grow.

## **PRESS RELEASE**

**FedTalks announces the moving of its May 19<sup>th</sup> FedTalk on**

### **"An Alternative to Endless Economic Growth"**

A discussion on the state of The Environment Movement  
and ways to transition to a Steady State.

**new date of Monday 16<sup>th</sup> June, 7pm at Federal Hall.**

**Organisers have made this decision due to much feedback from those wanting to attend, that the original date will clash with the probable RedAlert day at the Bentley CSG action. Given the synergies of the blockade action with The Steady State discussion the decision was taken to move the FedTalk's date.**

**With apologies for any inconveniences, please direct any enquiries to the contacts below.**
