Resources Handout – Building Undergraduate and Graduate Programs in Ecological Economics
Wednesday, January 20, 2010
10:00 AM – 12:00 PM
Heinz Center, 900 17th St NW Washington, DC

Organizations and Websites

**International Society for Ecological Economics (ISEE)**
ISEE is a not-for-profit, member-governed organization dedicated to advancing understanding of the relationships among ecological, social, and economic systems for the mutual well-being of nature and people. ISSEE’s provides materials and links for those who teach ecological economics and related subjects.

**Gund Institute for Ecological Economics, University of Vermont**
The Gund Institute seeks to shift the world's economies away from their present emphasis on infinite economic growth and toward a focus on sustainable human wellbeing. It blurs traditional academic boundaries and brings together experts, teachers, students, and stakeholders from all disciplines in order to develop new economic tools and ideas.

**Economics for Equity and the Environment: E3 Network**
In order to change what is wrong with the economy, this network of economists seeks to change what is wrong with economics as it is currently taught and practiced. E3 promotes a vision of an engaged, practical economics, in which an understanding of social equity and environmental protection cannot be separated.

**Center for the Advancement of the Steady State Economy (CASSE)**
The mission of CASSE is to advance the steady state economy, with stabilized population and consumption, as a policy goal with widespread public support. The field of ecological economics provides the foundation for this transition from unsustainable growth to a prosperous and dynamic steady state economy.

**The Post-Autistic Economics Network**
The network seeks to change how economics is taught to provide a better link between economic theory and real-world observations. Developed out of an international student movement to overhaul economics programs, the network produces an open online journal, *Real-World Economics Review*, with many articles about ecological economics.
