Happy Thanksgiving Week!

At CASSE this year, we’re thankful for (among other things):

- You! CASSE friends—signatories, subscribers, members, speakers, chapter directors, interns, advisors, writers, donors... even our critics! (Better criticized than ignored.)

- The launching of our new publishing imprint, the Steady State Press.

- The diligence of our staff in producing *Best of The Daly News: Selected Essays from the Leading Blog in Steady State Economics, 2010-2018* (hot off the Steady State Press).

- The functionality of the CASSE GDP Meter, the world’s only rolling 12-month GDP calculator that alarms viewers of the perils of ongoing growth.

- Our grant from the Weeden Foundation for the CASSE Internship Program.

- American University’s practicum on helping CASSE develop the Full and Sustainable Employment Act.

- Senator Corey Booker, who took some careful steps in “steady statesmanship” by questioning the merits of GDP growth (pursuant to our advice).

- The Nobel Prize awarded to Abhijit Banerjee, a CASSE signatory (making Banerjee the first Nobel prize-winning signatory).

- Our Ukrainian colleagues who invited us to coauthor the Kyiv Communiqué, calling out the Nord 2 Pipeline *on grounds of GDP growth*—a first in international environmental impact assessment.

- The Royal Society of New South Wales for hosting our talk (and publishing the paper) on the trophic theory of money.

- *Cambodian, Arabic,* and *Lugandan* translations of the CASSE position on economic growth (now in 29 languages).

- 5,000 Twitter and 8,000 Facebook followers.

In fact, we are so thankful for these people, projects, and prospects that we look forward to coming to work each day, to continue our crucial (and still rare) work in advancing the steady state economy.

Please join CASSE now and be one of the first to receive the *Best of The Daly News*, our long-awaited membership gift. If you’re not a “joiner,” then consider simply donating and/or ordering a copy of the *Best of The Daly News*.
